

SATYAM SAROJ

Lucknow, Uttar Pradesh, India | +91-6386610154 | adityasj122@gmail.com | linkedin.com/in/satyam-saroj-0957b726

CAREER OBJECTIVE

BCA graduate (2026) with hands-on experience in REST APIs, Postman, backend development, debugging, validation, and application reliability. Seeking a Software Test Engineer Intern role to apply software testing, QA concepts, manual testing, test-case design, API validation, and systematic bug reporting. Strong foundation in Java, Spring Boot, SQL, Git, and Agile development, with experience testing and documenting API endpoints and resolving security and input-validation issues.

TESTING & TECHNICAL SKILLS

Software Testing: Manual Testing, Functional Testing, API Testing, Regression Testing, Smoke Testing, Test Case Design, Test Execution, Bug Identification, Bug Reporting, QA Concepts

API Testing & Tools: Postman, Request/Response Validation, Endpoint Testing, Postman Collections, REST APIs, Git, GitHub, Maven

Programming: Java, Python, C, C++, JavaScript, C#

Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, RESTful Web Services, Microservices

Databases: MySQL, PostgreSQL, SQL Fundamentals (SELECT, JOIN, WHERE, GROUP BY), MongoDB (Basic)

Development & OS: Git Branching, Pull Requests, Code Reviews, CI/CD Concepts, Docker, Linux Shell Scripting & Troubleshooting

Core Concepts: SDLC, STLC, OOP, DSA, DBMS, Operating Systems, Computer Networks, Agile Methodologies

Security & Reliability: Input Validation, JWT Authentication, Role-Based Authorization, Vulnerability Identification & Remediation, Exception Handling

PROJECTS

AI-Powered Document Q&A; System (RAG Chatbot)

Java | Spring Boot | Spring AI | OpenAI API | pgvector | PostgreSQL | React.js | Docker | REST APIs | Postman

- Built a full-stack application with a Spring Boot backend and React.js frontend for document upload and natural-language Q&A.;
- Tested and documented every REST endpoint using Postman collections, validating requests, responses, inputs, and API behavior.
- Implemented request validation and centralized exception handling to improve reliability and provide consistent error responses.
- Verified document upload, query, and chat-history endpoints across expected request/response flows and integrated frontend-backend interactions.
- Used Git feature branches and pull requests while developing and validating changes.

Student Management System

Java | Spring Boot | Spring Security | JWT | MySQL | JPA | Postman

- Developed and deployed a secure RESTful backend service for managing student records with CRUD functionality.
- Tested and validated all API endpoints using Postman, checking authentication, authorization, input validation, CRUD operations, and error handling.
- Implemented JWT-based authentication and role-based authorization and remediated access-control and input-validation vulnerabilities.
- Added pagination, sorting, validation, and global exception handling to improve API reliability and consistency.
- Used MySQL for persistent storage and Git for source-code management.

EDUCATION

Bachelor of Computer Applications (BCA) — IIMT Group of Colleges, Greater Noida, UP | Sept 2023 – July 2026

Diploma in Electrical Engineering — SRMU, Lucknow, UP | Jan 2021 – 2023

Intermediate & High School — Tiny Tots Public School, Sultanpur | 2019 – 2021

ACHIEVEMENTS

- Solved 100+ DSA problems on LeetCode.
- Secured 2nd position in two Hackathon competitions, collaborating in teams and presenting technical solutions.
- Built and deployed full-stack applications using Java, Spring Boot, React.js, and MySQL, including an AI-integrated backend microservice.
